Menstrual Care Supply Drive

Lack of access to period products can be embarrassing to many teens and impact their education. According to the State of the Period report by Thinx and PERIOD:

- **23% of teens struggle to afford this basic necessity**
- **4 out of 5 menstruating teens say they have either missed class time or know someone who has because they lacked access to supplies**

Break down this barrier by collecting menstrual care products to be given to CHS school based programs. Materials must be in new condition. Contact VolunteersCHS@chsfl.org to coordinate delivery.

Most Impactful Supplies:

- **Tampons**
- **Maxi pads - multiple sizes**
- **Panty liners**
