

# Community Partnership Schools

**2024 Legislative Budget Request of \$10.6M Increase**  
**Total New Proposed Budget: \$21.6M**

## Fiscal year 23-24 current budget: \$11M (line item 157A)

We are requesting your support to increase grant funding for the Community Partnership Schools™ model (Section 1003.64, F.S.). The current legislative appropriation of \$11 million supports the existing 36 Community Partnership Schools and allows 8 additional Community Partnership Schools to begin the planning stage (see map on next page).

## Funding Request of \$10.6M

- Increase workload at the UCF Center for Community Schools through data evaluation and technical assistance
- Expand model to 8 new planning sites and secure funding for current planning sites
- Support workforce stability by increasing Community Partnership School coordinator salaries
- Increase additional support for students by funding an additional coordinator at elementary and middle school sites
- Ensure access to behavioral health services for students in every Community Partnership School site

*As we advance the Community Partnership Schools™ model and increase positive outcomes for more students and their families, additional funding will provide extra resources to support our schools, opportunities for growth, a competitive and stable workforce, and ensures accessibility to comprehensive behavioral health services for all students.*

## What makes Community Partnership Schools unique?

Community Partnership Schools are proven to improve student behavior, increase academic gains and graduation rates, and enhance parental involvement.

This collaborative approach leverages schools as central hubs toward improving child well-being by addressing key barriers to learning through counseling, medical and dental services, after-school enrichment, mentoring programs, and more.

The model helps create learning environments that provide all students with access to opportunities, fostering accelerated success both in school and in life.

## Partnership

- 4+ core partners
- Shared governance

## Commitment

- 25-year+ commitment
- 25% local match (in kind or cash)

## Long-term success

Improved teacher retention

Improved student behavior

Improved student wellness

Improved academic performance
