

LAKE WORTH COMMUNITY HIGH

A COMMUNITY PARTNERSHIP SCHOOL

chsfl.org/schools/lakeworth

Lake Worth High is the academic home for more than 2,500 students that are talented, full of potential and hopeful for better futures. Unfortunately, many of them come to school facing barriers beyond their control which impact their ability to succeed academically. Community Partnership Schools at Lake Worth is committed to providing the adequate supports to aid our students in overcoming those barriers. Current support initiatives include concrete support in the form of Food Security, Clothing, Healthcare, Behavioral and Mental Health, Vision, Dental, and Expanded Learning opportunities.

WAYS TO HELP

Volunteers are needed to support food distribution efforts, pop up shop, as well as family and community engagement events. Lake Worth Community High School also welcomes tutors to support our students in core areas of reading, math and science. Bi-Lingual support is highly valuable. We also welcome anyone willing to help to adopt a class by providing monetary support for classroom supplies.
